# Corent's SurPaaS Transforms Your Software into Scalable SaaS on Windows Azure – in Days!
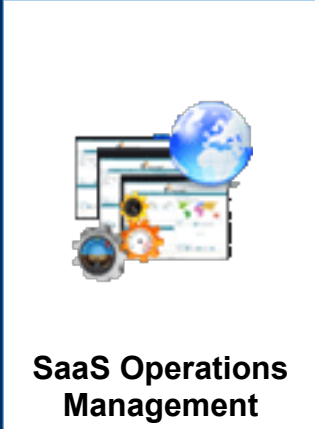

COMPANY PROFILE: CORENT TECHNOLOGY INC.

Corent's SurPaaS is a software delivery "as a service" platform, enabling software vendors to rapidly transform their software to SaaS in days, without any programming. SurPaaS provides complete SaaS enablement, including SaaS tenancy, operations, and commercial management.

WHAT WE OFFER

Powered by **Windows Azure**

Tenancy Model Management

SurPaaS enables a flexible tenancy model with support for virtual tenancy, multi-tenancy, or hybrid tenancy, providing the capability to offer exactly the type of SaaS solution best suited to your marketplace. Any application can be rapidly transformed to multi-tenant without changing the code.

SaaS Operations Management

SurPaaS provides the SaaS operations management capabilities needed for a SaaS business, including tenant provisioning and management, monitoring, and reporting, as well as deployment and topology management and SaaS application lifecycle management.

SaaS Commercial Management

SurPaaS provides subscription setup and management, billing interface, and usage metering for one or multiple applications or suites.

SaaS applications can be delivered in a franchise model, are channel ready, and can be white labeled.

"As a Service"

SurPaaS provides all the capabilities needed to enable and operate your software business "as a service" – in days!

ISVs, MSPs, or enterprises can rapidly become SaaS providers without having to re-engineer their software or develop all the "as-a-service" capabilities from scratch.

WHAT OUR CUSTOMERS ARE SAYING

"Using SurPaaS, we were able to shrink a 10-month SaaS enablement project into eight days."

- Fauzia Sid, President, IT Link Solutions

Microsoft

Windows Azure

Windows Azure is an open and flexible cloud platform that enables you to quickly build, deploy, scale, and manage applications across a global network of Microsoft data centers. You can build applications using multiple languages, tools, and frameworks.

KEY USE CASES

WEB APPLICATIONS
Build anything from lightweight websites to multi-tier cloud services that scale up as your traffic grows.

CLOUD STORAGE
Rely on geo-redundant cloud storage for backup, archiving, and disaster recovery.

BIG DATA & HPC
Get actionable insights from your data by taking advantage of a fully compatible enterprise-ready Hadoop service.

MOBILE
Accelerate your mobile app development by using a backend hosted in Windows Azure. Scale instantly as your install base grows.

MEDIA
Create, manage, and distribute media in the cloud – everything from encoding to content protection to streaming and analytics support.

FLEXIBLE APPLICATION MODEL
Windows Azure provides a rich set of application services, including SDKs, caching, messaging, and identity. You can write applications in .NET, PHP, Java, node.js, Python, Ruby, or using open REST protocols. This is all part of Microsoft's promise to let you build using any language, tool, or framework.

ALWAYS ON, ALWAYS HERE
Build resilient applications with automatic operating system and service updating, built-in network load balancing, and geo-redundant storage. Windows Azure also proudly delivers a 99.95% monthly SLA. You can rely on decades of experience in data center operations and trust that everything Windows Azure offers is backed by industry certifications for security and compliance.

DATA CENTER WITHOUT BOUNDARIES
Windows Azure makes it easy for you to integrate your on-premises IT environment with the public cloud. Migrate your virtual machines to Windows Azure without the need to convert them to a different format. Use the robust messaging and networking capabilities in Windows Azure to deliver hybrid solutions, and then manage your hybrid applications from a single console with System Center.

GLOBAL REACH
With data centers around the globe, a massive investment in data center innovation, and a worldwide Content Delivery Network, you can build applications that provide the best experience for users, wherever they are.
